Composite Description

The composite returns represent the total returns of all fully discretionary portfolios with a Lazard Global Managed Volatility investment mandate. Lazard Global Managed Volatility is a diversified equity strategy that seeks to produce stable, equity-like returns with total risk well below market levels. Stocks are selected for the portfolio using a proprietary, multi-factor investment process that seeks stocks with fundamental attractiveness and below average risk characteristics. The composite does not include currency hedging.

Calculation of Performance Returns

The composite and benchmark returns are reported net of foreign withholding taxes on dividends, interest and capital gains. The composite returns presented represent past performance and is not a reliable indicator of future results, which may vary.

Fee Schedule

Lazard’s standard fee schedule for Lazard Global Managed Volatility accounts is 0.50% on the first \$50MM, 0.45% on the next \$50MM, and 0.40% on the balance. (This fee schedule may be presented in non-U.S. local currency equivalents based on prevailing exchange rates.) The management fee schedule and total expense ratio for the collective trust is 0.45% and 0.55%, respectively. Unless otherwise noted, actual account fees, inclusive of performance-based fees and VAT (if applicable) are used in the construction of composite net of fee performance. For non-fee paying portfolios and sleeves of funds, net of fee performance has been calculated using the strategy’s standard fee schedule.
