Lazard Opportunistic Strategies

Composite Report

Benchmark: Global Asset Allocation Blended Index
Reporting Date: 31 December 2025
Composite Inception Date: 01 September 2005
Reporting Currency: Pound Sterling

Composite Description

The composite returns represent the total returns of all fully discretionary portfolios with a global balanced asset allocation investment mandate. The Lazard Opportunistic Strategies is a strategy, which looks to evaluate both equity and debt investments which have significant excess return potential with low degrees of correlation relative to generic market returns. These investments tend to fall in two categories; thematic or discounted. Thematic investments typically are industry or region specific investments. Discounted investments tend also to be industry or regionally specific and additionally trade at tangible discounts to fair market value. In both instances, these non-traditional investments are tied together by a broad, global macro economic viewpoint.

Calculation of Performance Returns

The composite and benchmark returns are reported net of foreign withholding taxes on dividends, interest and capital gains. The composite returns presented represent past performance and is not a reliable indicator of future results, which may vary.

Fee Schedule

Lazard's standard fee schedule for Opportunistic Strategies accounts is 1.0% on the first $100 million of assets and 0.80% on the balance as well as all underlying management fees. Unless otherwise noted, actual account fees, inclusive of performance-based fees and VAT (if applicable) are used in the construction of composite net of fee performance. For non-fee paying portfolios and sleeves of funds, net of fee performance has been calculated using the strategy's standard fee schedule.

Benchmark Information

The Opportunistic Strategies Blended Index consists of a quarterly rebalanced, 60/40 split of MSCI World Index (Net)/Bloomberg US Aggregate Bond Index. The MSCI World Index is an arithmetic, market value-weighted average, net of withholding taxes index, which is derived from equities of EAFE Index countries plus equities from Canada and the United States. The Index is compiled by MSCI Inc. The Bloomberg Capital US Aggregate Bond Index is a total return index composed of government securities, mortgage-backed securities, asset-backed securities and corporate securities to simulate the universe of bonds in the market.

Disclosures

Lazard Asset Management claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Lazard Asset Management has been independently verified for the periods January 1, 1993 through December 31, 2024. The verification reports are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. Lazard Asset Management is the "Firm" to which the GIPS Standards apply (Frankfurt office included in Firm definition as of January 1, 2003). In March 2023, LAM acquired all of the membership interests of Truvvo Investment Partners, LLC ("Truvvo"), a registered investment adviser that offers wealth management services to sophisticated families with complex balance sheets. The personnel who joined LAM in the acquisition now conduct their wealth management activities as a wholly-owned division of LAM named Lazard Family Office Partners. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. Policies for valuing investments, calculating performance, and preparing GIPS reports are available upon request. A complete list and description of all Lazard composites and pooled funds is available upon request. The composite creation date is December 2006.
