Composite Description

The composite returns represent the total returns of all fully discretionary portfolios with a Lazard Global Equity ESG Advantage investment mandate. Prior to October 1, 2020, the composite minimum was \$2 million. The Lazard Global Equity ESG Advantage strategy is a diversified global equity strategy whose objective is to seek to outperform the MSCI World Index with carefully controlled risk relative to the index. The portfolio relies on a core, bottom-up approach to achieve these targets while avoiding unwanted top-down or macro exposures. Stocks are selected for the portfolio using an active, quantitatively-based investment process that evaluates the environmental, social and corporate governance (ESG) characteristics of each stock in the investible universe relative to global peers. Each company in the investible universe is measured daily in terms of its growth potential, valuation, market sentiment and financial quality. The Strategy may also apply certain socially responsible investing (SRI) screens, such as the exclusion of companies involved in the production of firearms or tobacco. Portfolio exposures are similar to the benchmark, including region, industry, country, capitalization and beta.

Calculation of Performance Returns

Policies for valuing investments, calculating performance, and preparing GIPS reports are available upon request. The composite and benchmark returns are reported net of foreign withholding taxes on dividends, interest and capital gains. The composite returns presented represent past performance and is not a reliable indicator of future results, which may vary. A complete list and description of all Lazard composites and pooled funds is available upon request.

Fee Schedule

Lazard's standard fee schedule for Lazard Global Equity ESG Advantage accounts is 0.65% on the first \$50 million of assets, 0.55% on the next \$50 million of assets and 0.45% on the balance. (This fee schedule may be presented in non-U.S. local currency equivalents based on prevailing exchange rates.) Composite net-of-fees returns are calculated by reducing monthly composite returns by the 12th root of the stated strategy fee's highest tier.

Benchmark Information

The MSCI World Index is an arithmetic, market value-weighted average, net of withholding taxes index, which is derived from equities of EAFE Index countries plus equities from Canada and the United States. The Index is compiled by MSCI Inc.

GIPS Compliance and Verification Status

Lazard Asset Management claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Lazard Asset Management has been independently verified for the periods January 1, 1993 through December 31, 2023. The verification reports are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. Lazard Asset Management is the "Firm" to which the GIPS Standards apply (Frankfurt office included in Firm definition as of January 1, 2003). In March 2023, LAM acquired all of the membership interests of Truvvo Investment Partners, LLC ("Truvvo"), a registered investment adviser that offers wealth management services to sophisticated families with complex balance sheets. The personnel who joined LAM in the acquisition now conduct their wealth management activities as a wholly-owned division of LAM named Lazard Family Office Partners. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. The composite creation date is October 2013.
