Composite Description

The composite returns represent the total returns of all fully discretionary taxable and tax-exempt portfolios with a UK Equity Alpha investment mandate and a minimum of £3 million in assets under management from the first full month or the end of the month in which the account is fully invested. Lazard's UK Equity Alpha strategy aims to achieve long-term capital growth from investment in a concentrated portfolio of between 40 and 50 carefully selected UK equities. The portfolio is based on the belief that financial productivity measures how effectively a company is putting its shareholders' capital to work – and ultimately this drives valuation.

Calculation of Performance Returns

The composite returns are reported net of foreign withholding taxes on dividends, interest and capital gains. The composite returns presented represent past performance and is not a reliable indicator of future results, which may vary.

Fee Schedule

Lazard's standard fee schedule for UK Equity Alpha accounts is 0.80% on the first £ 50 million of assets and 0.60% on the balance. (This fee schedule may be presented in non-GBP local currency equivalents based on prevailing exchange rates.) Unless otherwise noted, actual account fees, inclusive of performance-based fees and VAT (if applicable) are used in the construction of composite net of fee performance. For non-fee paying portfolios and sleeves of funds, net of fee performance has been calculated using the strategy's standard fee schedule. An incentive fee schedule may be available.

Benchmark Information

The FTSE All-Share Index represents 98-99% of the UK market capitalization, calculated gross of dividends taxation, and is an aggregation of the FTSE 100, FTSE 250 and FTSE Small Cap Indices.
