Composite Inception Date:	01 December 2010
Reporting Currency:	U.S. Dollar

Composite Description

The composite returns represent the total returns of all fully discretionary portfolios with an Emerging Markets Debt - Local Debt investment mandate. The Emerging Markets Local Debt strategy seeks to outperform the benchmark, the JP Morgan Government Bond Index-Emerging Markets (GBI-EM) Global Diversified, with a tracking error of 150-300 bps. The majority of the portfolio (typically 90-100%) will be held in local currency debt. Typically 0-10% may be held in hard currency debt. Despite being benchmark-aware, the strategy is free to invest out of the benchmark - (maximum non-benchmark exposure is 50%) to allow the investment team to exploit the full universe of evolving opportunities. Key drivers of return for this strategy are currency appreciation/depreciation and interest-rate moves.

Calculation of Performance Returns

Policies for valuing investments, calculating performance, and preparing GIPS reports are available upon request. The composite and benchmark returns are reported net of foreign withholding taxes on dividends, interest and capital gains. The composite returns presented represent past performance and is not a reliable indicator of future results, which may vary. A complete list and description of all Lazard composites and pooled funds is available upon request.

Fee Schedule

Lazard's standard fee schedule for Emerging Markets Debt - Local Debt accounts is 0.60% on the first \$50 million of assets, 0.50% on the next \$50 million of assets, 0.45% on the next \$150 million of assets and 0.40% on the balance. (This fee schedule may be presented in non-U.S. local currency equivalents based on prevailing exchange rates.) Unless otherwise noted, actual account fees, inclusive of performance-based fees and VAT (if applicable) are used in the construction of composite net of fee performance. For non-fee paying portfolios and sleeves of funds, net of fee performance has been calculated using the strategy's standard fee schedule.

Benchmark Information

The JP Morgan GBI-EM Global Diversified index is a comprehensive, global local Emerging Markets total return index, and consists of regularly traded, liquid fixed-rate, domestic currency government bonds to which international investors can gain exposure.

GIPS Compliance and Verification Status

Lazard Asset Management claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Lazard Asset Management has been independently verified for the periods January 1, 1993 through December 31, 2023. The verification reports are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. Lazard Asset Management is the "Firm" to which the GIPS Standards apply (Frankfurt office included in Firm definition as of January 1, 2003). In March 2023, LAM acquired all of the membership interests of Truvvo Investment Partners, LLC ("Truvvo"), a registered investment adviser that offers wealth management services to sophisticated families with complex balance sheets. The personnel who joined LAM in the acquisition now conduct their wealth management activities as a wholly-owned division of LAM named Lazard Family Office Partners. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. The composite creation date is December 2010.
