# Composite Description

The composite returns represent the total returns of all fully discretionary portfolios with a Developing Markets Equity Select ADR investment mandate. Lazard's Developing Markets Equity Select ADR strategy seeks to generate strong relative returns over a long-term time horizon by investing in companies with strong financial productivity at attractive valuations. The strategy typically invests in 30-45 non-Rule 144A ADR securities, generally with a market capitalization of approximately \$300 million or greater, that are located, or that do significant business in, emerging market countries.

### Calculation of Performance Returns

Policies for valuing investments, calculating performance, and preparing GIPS reports are available upon request. The composite and benchmark returns are reported net of foreign withholding taxes on dividends, interest and capital gains. The composite returns presented represent past performance and is not a reliable indicator of future results, which may vary. A complete list and description of all Lazard composites and pooled funds is available upon request.

## Fee Schedule

Lazard's standard fee schedule for Developing Markets Equity Select ADR accounts is 0.75% on all assets. (This fee schedule may be presented in non-U.S. local currency equivalents based on prevailing exchange rates.) Unless otherwise noted, actual account fees, inclusive of performance-based fees and VAT (if applicable) are used in the construction of composite net of fee performance. For non-fee paying portfolios and sleeves of funds, net of fee performance has been calculated using the strategy's standard fee schedule.
