Composite Description

The composite returns represent the total returns of all fully discretionary portfolios with an Emerging Markets Core Equity investment mandate and a minimum of \$2,000,000 in assets under management. The Emerging Markets Core Equity strategy seeks to achieve attractive risk-adjusted relative returns through a full market cycle by investing in mispriced securities based on the portfolio management team's assessment of fair value. The strategy typically invests in securities with a market capitalization of approximately \$300 million or greater, that are located, or that do significant business, in emerging market countries.

Calculation of Performance Returns

Policies for valuing investments, calculating performance, and preparing GIPS reports are available upon request. The composite and benchmark returns are reported net of foreign withholding taxes on dividends, interest and capital gains. The composite returns presented represent past performance and is not a reliable indicator of future results, which may vary. A complete list and description of all Lazard composites and pooled funds is available upon request.

Fee Schedule

Lazard's standard fee schedule for Emerging Markets Core Equity accounts is 1.0% on the first \$100 million of assets and 0.80% on the balance (This fee schedule may be presented in non-U.S. local currency based on prevailing exchange rates.) The management fee schedule and total expense ratio for the collective trust is 1.00% and 1.25%, respectively. Unless otherwise noted, actual account fees, inclusive of performance-based fees and VAT (if applicable) are used in the construction of composite net of fee performance. For non-fee paying portfolios and sleeves of funds, net of fee performance has been calculated using the strategy's standard fee schedule.
