Composite Report

Benchmark:	FTSE European Focus Convertible Index (EUR)
Reporting Date:	31 December 2024
Composite Inception Date:	01 October 2008
Reporting Currency:	U.S. Dollar

Composite Description

The composite returns represent the total returns of all fully discretionary portfolios with a European Convertibles mandate with a minimum market value of €20 million. Prior to February 1, 2019, the composite minimum was €10 million and prior to January 1, 2018, the composite had no minimum market value. The strategy seeks to outperform the Refinitiv Convertible Europe Focus Index over an extended time frame. The investment team employs a fundamental, bottom-up approach that utilizes rigorous qualitative and quantitative analysis to drive security selection, complemented by a top-down process that guides tactical positioning. The strategy typically holds 30 to 60 European convertible bonds that are selected from a universe of approximately 250 securities. The strategy's overall exposure to interest rates and equity markets is actively managed and the investment team may, and has in the past, use futures, swaps, options, credit derivatives, and forward currency contracts to hedge and/or adjust the strategy's exposure to equity, interest rate, currency, and credit risks. Performance data prior to December 31, 2017 represents the strategy managed by the Convertibles team at a prior firm and comprise substantially of all the investment decision makers of that team. The Convertibles team employs a substantially similar investment strategy to manage this European Convertibles strategy as it did at its prior firm.

Calculation of Performance Returns

The composite returns are reported net of foreign withholding taxes on dividends, interest and capital gains. The composite returns presented represent past performance and is not a reliable indicator of future results.

Fee Schedule

Lazard's standard fee schedule for the European Convertibles strategy accounts is 0.70% per annum on the first \$50 million, 0.65% on the next \$100 million, 0.60% on the next \$100 million and 0.55% on the balance. (This fee schedule may be presented in non-U.S. local currency equivalents based on prevailing exchange rates.) Unless otherwise noted, actual account fees, inclusive of performance-based fees and VAT (if applicable) are used in the construction of composite net of fee performance. For non-fee paying portfolios and sleeves of funds, net of fee performance has been calculated using the strategy's standard fee
