# Composite Description

The composite returns represent the total returns of all fully discretionary portfolios with a US Equity Focus investment mandate. The US Equity Focus strategy invests in financially productive and attractively valued companies generally greater than \$5 billion in market cap, employing intensive fundamental analysis and accounting validation to identify investment opportunities.

#### Calculation of Performance Returns

Policies for valuing investments, calculating performance, and preparing GIPS reports are available upon request. The composite returns are reported net of foreign withholding taxes on dividends, interest and capital gains. The composite returns presented represent past performance and is not a reliable indicator of future results, which may vary. A complete list and description of all Lazard composites and pooled funds is available upon request.

#### Fee Schedule

Lazard's standard fee schedule for US Equity Focus accounts is 0.55% on the first \$50 million; 0.45% on the next \$100 million and 0.35% on the balance. (This fee schedule may be presented in non-U.S. local currency equivalents based on prevailing exchange rates.) Unless otherwise noted, actual account fees, inclusive of performance-based fees and VAT (if applicable) are used in the construction of composite net of fee performance. For non-fee paying portfolios and sleeves of funds, net of fee performance has been calculated using the strategy's standard fee schedule.

## Benchmark Information
