Composite Description

The composite returns represent the total returns of all fully discretionary portfolios with an International Small Capitalization Equity mandate and a minimum of \$5 million in assets under management. Lazard's International Small Cap Equity composite returns represent the total returns of all fully discretionary portfolios with an International Small Capitalization Equity mandate. Lazard International Small Cap Equity seeks to generate strong relative returns over a long-term time horizon by investing in companies with strong financial productivity at attractive valuations. The strategy typically invests in 60-80 securities of non-U.S. companies, with a market capitalization between \$300 million and \$5 billion.

Calculation of Performance Returns

Policies for valuing investments, calculating performance, and preparing GIPS reports are available upon request. The composite and benchmark returns are reported net of foreign withholding taxes on dividends, interest and capital gains. The composite returns presented represent past performance and is not a reliable indicator of future results, which may vary. A complete list and description of all Lazard composites and pooled funds is available upon request.

Fee Schedule

Lazard's standard fee schedule for International Small Capitalization Equity accounts is 0.85% on the first \$100 million of assets and 0.65% on the balance. (This fee schedule may be presented in non-U.S. local currency equivalents based on prevailing exchange rates.) Unless otherwise noted, actual account fees, inclusive of performance-based fees and VAT (if applicable) are used in the construction of composite net of fee performance. For non-fee paying portfolios and sleeves of funds, net of fee performance has been calculated using the strategy's standard fee schedule.
