Composite Description

The composite returns represent the total returns of all fully discretionary portfolios with a Baylight US Small Cap Equity mandate. The Lazard Baylight US Small Cap Equity strategy seeks to generate strong relative returns over a full market cycle by combining fundamental insights and quantitative techniques into a fully systematic process. The number of security holdings in a portfolio may have a material impact on portfolio performance.

Calculation of Performance Returns

The composite returns are reported net of foreign withholding taxes on dividends, interest and capital gains. The composite returns presented represent past performance and is not a reliable indicator of future results, which may vary. Performance data prior to June 2019 represents the strategy managed by the Baylight team at a prior firm and comprise substantially of all the investment decision makers of that team. The Baylight team employs a substantially similar investment strategy to manage this Baylight US Small Cap strategy as it did at its prior firm. Effective March 2025, the composite name changed from US Systematic Small Cap Equity to Baylight US Small Cap Equity.

Fee Schedule

Lazard's standard fee schedule for Baylight US Small Cap Equity accounts is 0.75% on the first \$100 million and 0.60% on the balance. (This fee schedule may be presented in non-U.S. local currency equivalents based on prevailing exchange rates.) The management fee for the pooled fund is 0.75%. Actual account fees, inclusive of performance-based fees and VAT (if applicable) are used in the construction of composite net of fee performance unless otherwise noted. For non-fee paying portfolios and sleeves of funds, net of fee performance has been calculated using the strategy's standard fee schedule.
