**Reporting Date:** 31 December 2024  
**Composite Inception Date:** 01 September 2020  
**Reporting Currency:** Euro

### Composite Description

The composite returns represent the total returns of all fully discretionary portfolios with a Lazard Global Convertibles Recovery investment mandate and a minimum of \$24 million in assets under management. Lazard Global Convertibles Recovery strategy seeks to identify convertible bonds which we identify as mispriced or undervalued by the market as a result of some manner of company specific, sectoral, regional or global disruption event and are likely to experience a recovery in their valuation. The strategy's overall exposure to interest rates and equity markets is actively managed and the investment team may, and has in the past, use futures, swaps, options, credit derivatives, and forward currency contracts to hedge and/or adjust the strategy's exposure to equity, interest rate, currency, and credit risks.

### Calculation of Performance Returns

The composite returns are reported net of foreign withholding taxes on dividends, interest and capital gains. The composite returns presented represent past performance and is not a reliable indicator of future results, which may vary.

### Fee Schedule

Lazard's standard fee schedule for Global Convertibles Recovery accounts is 0.70% on the first \$50 million, 0.65% on the next \$100 million and 0.60% on the balance. (This fee schedule may be presented in non-U.S. local currency equivalents based on prevailing exchange rates.) Unless otherwise noted, actual account fees, inclusive of performance-based fees and VAT (if applicable) are used in the construction of composite net of fee performance. For non-fee paying portfolios and sleeves of funds, net of fee performance has been calculated using the strategy's standard fee schedule.
