Directors' report

The directors of Lazard Asset Management Pacific Co. (the "Responsible Entity"), as responsible entity for the Lazard Global Equity Advantage Fund (the "Scheme") submit herewith their report together with the annual financial statements of the Scheme for the financial period from 9 July 2025 to 30 June 2026. The Scheme was constituted on 6 June 2025 and commenced operations on 9 July 2025. In order to comply with the provisions of the *Corporations Act 2001*, the Directors' report is as follows:

Directors

The names of the directors of the Responsible Entity during or since the end of the period and up to the date of issuance of this report are:

Evan Russo (resigned effective 1 December 2025)
Nicholas Bratt
Robert Osborn
Nathan Paul (resigned effective 28 February 2026)
Paul Cuddy

Principal activities

The Scheme is a registered managed investment scheme domiciled in Australia.

The principal activity of the Scheme is to invest funds in accordance with its investment objectives and guidelines as set out in the current Product Disclosure Statement and in accordance with the provisions of the Constitution.

The Scheme seeks consistency of performance throughout market cycles and relies on a core, bottom-up stock selection approach while avoiding unwanted macroeconomic exposures. The investment universe consists of approximately 5,000 developed market and 3,600 emerging market stocks that are domiciled in countries within the MSCI All Country World Index.

There have been no significant changes in the activities of the Scheme during the period.

The Scheme did not have any employees during the period.

Service Providers

Responsible Entity - Lazard Asset Management Pacific Co.

Custodian and Administrator - State Street Australia Limited

Auditor - Deloitte Touche Tohmatsu

Registry Provider - Automic Pty Ltd

Review of operations

Results

The results of operations of the Scheme are disclosed in the statement of profit or loss and other comprehensive income. The operating profit attributable to unitholders for the financial period from 9 July 2025 to 30 June 2026 was \$9,332,579.

Directors' report (continued)

Distributions

The directors of the Responsible Entity report distributions paid or payable for the period from 9 July 2025 to 30 June 2026 as follows:

Distribution	Period ended	
	9 July 2025 to 30 June 2026 \$	9 July 2025 to 30 June 2026 cents per unit
Distribution paid in July 2026	634,726	3.71

Performance

Investment objective

The Scheme seeks to achieve total returns (including income and capital appreciation and before the deduction of fees and taxes) that exceed those of the MSCI All Country World Index Net Return (unhedged in AUD) ("the benchmark") by 2% per annum over a full market cycle.

	2026 %
Return to 30 June	
Total Return	22.30
MSCI All Country World Index Net Return (unhedged in AUD)	15.76

Commentary

Over the financial period to 30 June 2026, the W Class of the Scheme returned 22.30%¹ since the Fund's inception on 9 July 2025, outperforming the MSCI All Country World Index Net Return (unhedged in AUD) which returned 15.76% over the same period. The top contributors to performance during this period included Micron Technology and Samsung Electronics. The key detractors from performance during this period included Adobe and Fiserv.

Global equity markets produced outsized returns in the first half of 2026, led by a sharp rally in emerging markets. Investors continued to favour AI-themed opportunities beyond the "Magnificent Seven" and their enormous capital spending, extending interest to chip manufacturers and other AI related companies. The US-Iran war triggered a sharp rise in oil prices, which, amid an uneasy peace, have since retreated to pre-war levels. It also prompted an increase in inflation, which caused central banks to turn more hawkish in their rhetoric, reducing the possibility of near-term benefit from lower rates.

Looking forward to the second half of the year, we remain constructive on the equity markets as we expect corporate earnings to remain strong, supported by a resilient US economy and consumer spending, along with a modest pickup in both Europe and Japan. While market multiples remain high by historical standards, earnings growth has justified these multiples, and we remain optimistic that this trend will continue. Most indicators continue to signal a modest increase in global economic activity, which should be sufficient to support corporate profit growth. We acknowledge that there are areas of concern, including monetization of AI-related capital spending, increasing prevalence of lower-cost alternatives, and the potential for a market bubble in certain areas, such as South Korea. The concentration of the indices is also concerning, as disappointment in a single stock could have a broader contagion effect. While the Middle East conflict seems to be moving

Directors' report (continued)

toward a resolution, other geopolitical tensions remain elevated and could escalate. Against a backdrop of evolving macro-risks, we believe diversification remains the most effective portfolio defense. In this environment, disciplined bottom-up security selection is likely to be a reliable approach to identifying attractive opportunities across global markets.

¹ Past performance is not a reliable indicator of future results. Performance is provided for the W unit class of the scheme, is on a relative basis and is presented gross of fees and assumes reinvestment of all distributions.

Changes in state of affairs

During the period there were no significant changes in the state of affairs of the Scheme other than that referred to in the financial statements or notes thereto.

Subsequent events

No significant events have occurred since the end of the period which would impact on the financial position of the Scheme as disclosed in the statement of financial position as at 30 June 2026 or on the results and cash flows of the Scheme for the period ended on that date.

Future developments

The Scheme will continue to be managed in accordance with the investment objectives and guidelines as set out in the governing documents of the Scheme and in accordance with the provisions of the Scheme's Constitution.

Further information on likely developments in the operations of the Scheme and the expected results of those operations have not been included in this report because the Responsible Entity believes it would be likely to result in unreasonable prejudice to the Scheme.

Indemnity of officers of the Responsible Entity and auditors

During the period, a related party of the Responsible Entity paid a premium in respect of a contract insuring the directors of the Responsible Entity and all executive officers of the Responsible Entity against a liability incurred by such a director or executive officer to the extent permitted by the *Corporations Act 2001*.

The Responsible Entity has not otherwise, during or since the end of the period, indemnified or agreed to indemnify an officer or auditor of the Responsible Entity against a liability incurred as such an officer or auditor.

Scheme information in the Directors' report

Fees paid to the Responsible Entity and its related entities¹ out of Scheme property during the period are disclosed in Note 12 to the financial statements. Note 13 to the financial statements discloses details of the indirect cost ratio.

The number of units in the Scheme held by the Responsible Entity or its related entities¹ as at the end of the period are disclosed in Note 17 to the financial statements.

The number of interests in the Scheme issued during the period, withdrawals from the Scheme during the period and the number of interests in the Scheme at the end of the period are disclosed in Note 9 to the financial statements.

The value of the Scheme's assets as at the end of the period is disclosed in the statement of financial position as "Total Assets" and the basis of valuation is included in Note 2 to the financial statements.

¹ Related entities include directors and secretaries of the Responsible Entity, related body corporates and directors and secretaries of related body corporates.

Environmental regulation

The operations of the Scheme are not subject to any particular or significant environmental regulations under a Commonwealth, State or Territory law.

Directors' report (continued)

Rounding of amounts to the nearest dollar

The Scheme is an entity of a kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2026/183* issued by the Australian Securities and Investments Commission (ASIC) relating to the "rounding off" of amounts in the Directors' report. Amounts in the Directors' report have been rounded to the nearest dollar in accordance with that ASIC Corporations Instrument, unless otherwise indicated.

Auditor's independence declaration

A copy of the Auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is included on page 6.

Signed in accordance with a resolution of the directors of the Responsible Entity made pursuant to section 298(2) of the *Corporations Act 2001*.

Dear Directors,

Auditor's Independence Declaration to Lazard Global Equity Advantage Fund

In accordance with section 307C of the Corporations Act 2001, I am pleased to provide the following declaration of independence to the Directors of Lazard Asset Management Pacific Co., as Responsible Entity of Lazard Global Equity Advantage Fund.

As lead audit partner for the audit of the financial report of Lazard Global Equity Advantage Fund for the period 9 July 2025 to 30 June 2026, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- The auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- Any applicable code of professional conduct in relation to the audit.

Yours faithfully

Deloitte Touche Tohmatsu

Independent Auditor's Report to the Unitholders of Lazard Global Equity Advantage Fund

Opinion

We have audited the financial report of Lazard Global Equity Advantage Fund (the "Scheme") which comprises the statement of financial position as at 30 June 2026, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the period 9 July 2025 to 30 June 2026, and notes to the financial statements, including material accounting policy information, and other explanatory information, and the directors' declaration.

In our opinion, the accompanying financial report of the Scheme is in accordance with the *Corporations Act 2001*, including:

- Giving a true and fair view of the Scheme's financial position as at 30 June 2026 and of its financial performance for the period then ended; and
- Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Scheme in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the APES 110 Code of Ethics for Professional Accountants (including Independence Standards) issued by the Accounting Professional & Ethical Standards Board Limited (the Code) that are relevant to audits of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the responsible entity, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The directors of the responsible entity are responsible for the other information. The other information comprises the information included in the directors' report for the period ended 30 June 2026, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors of the responsible entity for the Financial Report

The directors of the responsible entity are responsible:

- For the preparation of the financial report in accordance with the *Corporations Act 2001*, including giving a true and fair view of the financial position and performance of the Scheme in accordance with Australian Accounting Standards; and
- For such internal control as the directors determine is necessary to enable the preparation of the financial report in accordance with the *Corporations Act 2001*, including giving a true and fair view of the financial position and performance of the Scheme, and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors of the responsible entity are responsible for assessing the ability of the Scheme to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Scheme or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Scheme's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Scheme's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Scheme to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Directors' declaration

The financial statements and notes thereto of the Lazard Global Equity Advantage Fund (the "Scheme") for the period from 9 July 2025 to 30 June 2026 have been prepared by Lazard Asset Management Pacific Co. (the "Responsible Entity") in accordance with the *Corporations Act 2001*.

The directors of the Responsible Entity declare that, in the Directors' opinion:

- (a) the financial statements and notes set out on pages 11 to 36 are in accordance with the *Corporations Act 2001* including:
 - (i) complying with Australian Accounting Standards, the *Corporations Regulations 2001*;
 - (ii) complying with International Financial Reporting Standards as stated in Note 2 to the financial statements; and
 - (iii) giving a true and fair view of the Scheme's financial position as at 30 June 2026 and of its performance for the period ended on that date.
- (b) there are reasonable grounds to believe that the Scheme will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of the directors of the Responsible Entity made pursuant to section 295(5) of the *Corporations Act 2001*.

1 General Information

These financial statements cover the Lazard Global Equity Advantage Fund (the “Scheme”) as an individual entity.

The Responsible Entity of the Scheme is Lazard Asset Management Pacific Co. (ABN 13 064 523 619) (the “Responsible Entity”). The Responsible Entity’s registered office is Level 12, Gateway, 1 Macquarie Place, Sydney, NSW 2000.

The principal activity of the Scheme is to invest funds in accordance with its investment objectives and guidelines as set out in the current Product Disclosure Statement and in accordance with the provisions of the Constitution.

The financial statements were authorised for issue by the directors on the date the Directors’ declaration was signed. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

2 Material accounting policy information

The material accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to the period presented, unless otherwise stated in the following text.

(a) Statement of compliance and basis of preparation

This general purpose financial report has been prepared in accordance with the *Corporations Act 2001*, Australian Accounting Standards and Interpretations and complies with other requirements of the law. For the purposes of preparing financial statements the Scheme is a for-profit entity.

The financial statements were authorised for issue by the directors on 30 September 2026.

The financial report has been prepared on the basis of historical cost, except for the revaluation of financial instruments. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian Dollars, unless otherwise noted.

In the application of Australian Accounting Standards management is required to make judgments, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstance, the result of which form the basis of making the judgments. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgments made by management in the application of Australian Accounting Standards that have significant effects on the financial statements and estimates with a significant risk of material adjustments in the next year are disclosed, where applicable, in the relevant notes to the financial statements.

The statement of financial position is presented on a liquidity basis.

Assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and non-current. All balances are expected to be recovered or settled within twelve months, except for financial assets at fair value through profit or loss and net assets attributable to unitholders.

The Scheme manages financial assets at fair value through profit or loss based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within 12 months, however, an estimate of that amount cannot be determined as at reporting date.

In the case of net assets attributable to unitholders, the units are redeemable on demand at the unitholder’s option. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within 12 months cannot be reliably determined.

2 Material accounting policy information (continued)

(a) Statement of compliance and basis of preparation (continued)

Compliance with International Financial Reporting Standards ("IFRS")

The financial statements of the Scheme also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

(b) New accounting standards and interpretations adopted by the Scheme

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the period beginning 9 July 2025 that have a material impact on the Scheme.

(c) New standards and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 July 2026 and have not been early adopted in preparing these financial statements.

None of these are expected to have a material effect on the financial statements of the Scheme.

AASB 18 Presentation and Disclosure in Financial Statements

AASB 18 replaces AASB 101 Presentation of Financial Statements. It will not change the recognition and measurement of items in the financial statements, but will affect presentation and disclosure in the financial statements, including introducing new categories and defined subtotals in the statement of profit or loss, requiring the disclosure of management-defined performance measures, and changing the grouping of information in the financial statements.

(d) Financial Instruments

(i) Classification

Financial Assets at Fair Value Through Profit or Loss

The Scheme classifies its financial assets based on its business model for managing those financial assets and the contractual cash flow characteristics of the financial assets.

The Scheme's portfolio of financial assets is managed and performance is evaluated on a fair value basis in accordance with the Scheme's documented investment strategy. The Responsible Entity evaluates the information about these financial assets on a fair value basis together with other related financial information. The portfolio is neither held to collect contractual cash flows nor held to both collect contractual cash flows and to sell the financial assets. The collection of contractual cash flows is incidental to achieving the business model's objective. Consequently, the portfolio of financial assets must be measured at fair value through profit or loss.

The Scheme's portfolio consists of listed equity securities and derivative financial instruments such as foreign currency contracts. The contractual cash flows of these instruments do not represent solely payments of principal and interest. Consequently, these investments are measured at fair value through profit or loss.

For other receivables and payables, including amounts due to/from brokers, these balances are classified at amortised cost as they are deemed to be held in a business model with the objective to collect contractual cash flows through to maturity, and whose terms meet the SPPI criterion by virtue of the fact that payments pertain to only principal and/or simple interest.

Financial Liabilities at Fair Value Through Profit or Loss

All financial liabilities are classified at amortised cost using the effective interest method or at fair value through profit or loss.

Financial liabilities are classified as at fair value through profit or loss when the financial liability is (i) held for trading or (ii) it is designated as at fair value through profit or loss.

2 Material accounting policy information (continued)

(d) Financial Instruments (continued)

(i) Classification (continued)

A financial liability is classified as held for trading if:

- it has been acquired principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Scheme manages together and has a recent actual pattern of short term profit taking; or
- it is a derivative, except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument.

(ii) Recognition / derecognition

The Scheme recognises financial assets and financial liabilities in the statement of financial position on the date it becomes party to the contractual agreement (trade date) of the instrument.

Financial assets are derecognised when the right to receive cash flows from the investments has expired or the Scheme has transferred substantially all risks and rewards of ownership. Financial liabilities are derecognised when the Scheme's obligations are discharged, cancelled or expired.

(iii) Measurement

Financial assets and liabilities at fair value through profit or loss are measured initially at fair value excluding any transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the financial assets or financial liabilities at fair value through profit or loss category are presented in the Statement of Profit or Loss and Other Comprehensive Income within 'Net gains/(losses) on financial instruments at fair value through profit or loss' in the period in which they arise.

Further details on how the fair values of financial assets and liabilities are determined are disclosed in Note 5.

Subsequent to initial recognition, financial assets and liabilities measured at amortised cost are recorded at amortised cost using the effective interest rate method and are presented net of provisions for impairment.

(iv) Impairment

All financial assets which are not measured at fair value through profit or loss are assessed for impairment at each reporting date using a forward looking approach by identifying expected credit losses (ECL). Expected credit losses are defined as the difference between the contractual cash flows that are due in accordance with the contract and the cash flows that the Scheme expects to receive, discounted at the original effective interest rate.

For receivables, due from brokers, margin accounts and applications receivable, impairment provisions are recognised based on the simplified approach within AASB 9 using the lifetime expected credit losses. The Scheme has established a provision matrix that is based on the Scheme's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. There was no provision raised as at 30 June 2026.

(e) Offsetting financial instruments

Financial assets and liabilities related to derivatives are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. Refer to Note 4 to the financial statements for further information.

2 Material accounting policy information (continued)

(f) Net assets attributable to unitholders

Units are redeemable at the unitholders' option, however, applications and redemptions may be suspended by the Responsible Entity if it is in the best interests of the unitholders. The units can be put back to the Scheme at any time for cash based on the redemption price, which is equal to a proportionate share of the Scheme's net asset value attributable to the unitholders. The units are carried at the redemption amount that is payable at balance sheet date if the holder exercises the right to put the unit back to the Scheme. This amount represents the expected cash flows on redemption of these units.

Under AASB 132 *Financial instruments: Presentation*, puttable financial instruments are classified as equity where certain strict criteria are met. The Scheme classifies the net assets attributable to unitholders as equity as they satisfy the following criteria:

- the puttable financial instrument entitles the holder to a pro-rata share of net assets in the event of the Scheme's liquidation;
- the puttable financial instrument is in the class of instruments that is subordinate to all other classes of instruments and class features are identical;
- the puttable financial instrument does not include any contractual obligations to deliver cash or another financial asset, or to exchange financial instruments with another entity under potentially unfavourable conditions to the Scheme, and it is not a contract settled in the Scheme's own equity instruments; and
- the total expected cash flows attributable to the puttable financial instrument over the life are based substantially on the profit or loss.

(g) Cash and cash equivalents

Cash and cash equivalents includes cash on hand and deposits held at call with banks.

(h) Margin accounts

Margin accounts comprise cash held as collateral for derivative transactions and short sales. The cash is held by the broker against existing margin calls and is restricted to only be available to meet margin calls. It is not included as a component of cash and cash equivalents as it is only used to settle swaps trades therefore does not meet the definition of a cash and cash equivalent.

(i) Investment income

Interest income from financial assets at amortised cost is recognised on a time-proportionate basis using the effective interest method and includes interest from cash and cash equivalents.

Distribution and dividend income from financial assets at fair value through profit or loss is recognised in the statement of profit or loss and other comprehensive income within distribution and dividend income when the Scheme's right to receive payments is established. Any related foreign withholding tax is recorded as an expense.

(j) Expenses

All expenses, including management costs, are recognised in the statement of profit or loss and other comprehensive income on an accruals basis.

(k) Income tax

The Scheme was a "flow-through" entity for Australian income tax purposes and elected into the Attribution Managed Investment Trusts rules from the 2021 income period, such that the determined trust components of the Scheme will be taxable in the hands of the beneficiaries (the unitholders) on an attribution basis.

2 Material accounting policy information (continued)

(k) Income tax (continued)

Accordingly, deferred taxes have not been recognised in the financial statements in relation to differences between the carrying amounts of assets and liabilities and their respective tax bases, including taxes on capital gains/losses which could arise in the event of a sale of investments for the amount at which they are stated in the financial statements.

Realised capital losses are not attributed to unitholders but instead are retained within the Scheme to be offset against realised capital gains. The benefit of any carried forward capital losses are also not recognised in the financial statements. If in any period realised capital gains exceed realised capital losses, including those carried forward from earlier periods and eligible for offset, the excess is included in taxable income attributed to unitholders as noted above.

(l) Distributions

In accordance with the Scheme's Constitution, the Scheme attributes its taxable income, and any other amounts determined by the Responsible Entity, to unitholders by cash or reinvestment. Distributions are recognised in the statement of changes in equity as distributions paid and payable.

(m) Increase/decrease in net assets attributable to unitholders

Non-distributable income is included in net assets attributable to unitholders. Movements in net assets attributable to unitholders are recognised in the statement of changes in equity for the current period ended 30 June 2026.

Non-distributable income may consist of unrealised changes in the fair value of financial instruments at fair value through profit or loss, derivative financial instruments, accrued income not yet assessable, expenses provided or accrued for which are not yet deductible, net capital losses and tax free or tax deferred income. Net capital gains on the realisation of any financial instruments (including any adjustments for tax deferred income previously taken directly to liabilities attributable to unitholders) and accrued income not yet assessable will be included in the determination of distributable income in the same year in which it becomes assessable for tax.

(n) Foreign currency translation

(i) Functional and presentation currency

Items included in the Scheme's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is the Australian dollar, which reflects the currency of the economy in which the Scheme competes for funds and is regulated. The Australian dollar is also the Scheme's presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of profit or loss and other comprehensive income.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when fair value was determined. Translation differences on assets and liabilities carried at fair value are reported in the statement of profit or loss and other comprehensive income on a net basis within net gain/(losses) on financial instruments at fair value through profit or loss.

(o) Due from/to brokers

Amounts due from/to brokers represent payables for securities purchased and receivables for securities sold that have been contracted for but not yet delivered by the end of the year. The amounts due from brokers balance is held for collection and consequently measured at amortised cost.

2 Material accounting policy information (continued)

(o) Due from/to brokers (continued)

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Scheme shall measure the loss allowance on amounts due from brokers at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Scheme shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

(p) Receivables

Receivables may include amounts for dividends, trust distributions and interest. Dividends and trust distributions are accrued when the right to receive payment is established. Interest is accrued at the end of each reporting period from the time of last payment. Amounts are generally received within 30 days of being recorded as receivables.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Scheme shall measure the loss allowance on receivables at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Scheme shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the counterparty, probability that the counterparty will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

The amount of the impairment loss is recognised in profit or loss within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in profit or loss.

(q) Payables

Payables include liabilities and accrued expenses owing by the Scheme which are unpaid as at the end of the reporting period.

Trades are recorded on trade date, and normally settled within three business days. Purchases of securities and investments that are unsettled at reporting date are included in payables.

The distribution amount payable to unitholders as at the end of each reporting date is recognised separately on the statement of financial position as unitholders are presently entitled to the distributable income as at 30 June 2026 under the Scheme's Constitution.

(r) Applications and redemptions

Applications received for units in the Scheme are recorded net of any entry fees payable prior to the issue of units in the Scheme. Redemptions from the Scheme are recorded gross of any exit fees payable after the cancellation of units redeemed.

Unit application and redemption prices are determined by reference to the net assets of the Scheme divided by the number of units on issue adjusted for the buy/sell spread.

2 Material accounting policy information (continued)

(s) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of goods and services tax (GST), except:

- (i) where the amount of GST incurred is not recoverable from the taxation authority, it is recognised as part of the cost of the acquisition of an asset or as part of an item of expenses; or
- (ii) for receivables and payables which are recognised inclusive of GST.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables.

Cash flows are included in the statement of cash flows on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.

(t) Rounding of amounts

The Scheme is an entity of a kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2026/183* issued by the Australian Securities and Investments Commission (ASIC) relating to the "rounding off" of amounts in the financial statements. Amounts in the financial statements have been rounded to the nearest dollar in accordance with that ASIC Corporations Instrument, unless otherwise indicated.

(u) Comparative revisions

The Scheme was constituted on 6 June 2025 and commenced operations on 9 July 2025. The reporting period covers the period 9 July 2025 to 30 June 2026, hence there is no comparative information.

3 Financial risk management

The Scheme's activities expose it to a variety of financial risks: market risk (including price risk, foreign exchange risk and interest rate risk), credit risk and liquidity risk.

The Scheme's overall risk management programme focuses on ensuring compliance with the Scheme's Product Disclosure Statement and seeks to maximise the returns derived for the level of risk to which the Scheme is exposed.

Financial risk management is carried out by the investment management department under policies approved by the Board of Directors of the Responsible Entity (the Board). The Scheme uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate, foreign exchange and price risks and ratings analysis for credit risk.

(a) Market risk

(i) Price risk

The Scheme is exposed to equity securities price risk. This arises from investments held by the Scheme for which prices in the future are uncertain. They are classified on the statement of financial position at fair value through profit or loss. All securities investments present a risk of loss of capital. The maximum risk resulting from financial instruments is determined by the fair value of the financial instruments.

The investment manager mitigates this price risk through diversification and a careful selection of securities and other financial instruments within specified limits set by the Board. The majority of the Scheme's equity investments are publicly traded on stock exchanges located in North America, Europe and Asia.

3 Financial risk management (continued)

(a) Market risk (continued)

(i) Price risk (continued)

The table on page 24 summarises the impact of an increase/decrease of the MSCI All Country World Index Net Return (unhedged in AUD) on the Scheme's net assets attributable to unitholders as at 30 June 2026. The analysis is based on the assumptions that the index increased/decreased by 10% with all other variables held constant and that the fair value of the Scheme's portfolio of equity securities moved according to the historical correlation with the index.

(ii) Foreign exchange risk

The Scheme holds both monetary and non-monetary assets denominated in currencies other than the Australian dollar. The foreign exchange risk relating to non-monetary assets and liabilities is a component of price risk. Foreign exchange risk arises as the value of monetary securities denominated in other currencies will fluctuate due to changes in exchange rates. The risk is measured using sensitivity analysis.

The following table details the Scheme's international investment (including cash and cash equivalents) in Australian dollar equivalents from the top two currency and the amounts, that are hedged using foreign currency contracts not designated in hedge accounting relationships as at reporting date:

	30 June 2026	
	USD	EUR
	A\$	A\$
Gross investments amounts denominated in foreign currency	66,115,340	7,681,363
Amount hedged	(1,039)	-
Net exposure to foreign currency	66,114,301	7,681,363

The table on page 24 summarises the sensitivities of the Scheme's monetary assets and liabilities to foreign exchange risk. The analysis is based on the assumption that the foreign currency weakened/strengthened by 10% against the Australian Dollar.

(iii) Interest rate risk

The Scheme's interest bearing financial assets expose it to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. This risk is usually measured by way of sensitivity analysis.

The impact of changes in interest rates will not have a material effect on the financial position or cash flows of the Scheme due to the cash balance being on average a small percentage of the Scheme's assets. Accordingly no sensitivity analysis has been prepared for interest rate risk.

3 Financial risk management (continued)

(a) Market risk (continued)

(iii) Interest rate risk (continued)

The table below summarises the Scheme's exposure to interest rate risks.

	Floating interest rate \$	Fixed interest rate \$	Non interest bearing \$	Total \$
30 June 2026				
Assets				
Cash and cash equivalents	2,317,733	-	-	2,317,733
Receivables	-	-	1,666,244	1,666,244
Due from brokers - receivable for securities sold	-	-	1,981	1,981
Financial assets at fair value through profit or loss	-	-	100,216,697	100,216,697
Total assets	2,317,733	-	101,884,922	104,202,655
Liabilities				
Distributions payable	-	-	634,726	634,726
Payables	-	-	255,978	255,978
Due to brokers - payable for securities purchased	-	-	3,233	3,233
Total liabilities	-	-	893,937	893,937
Net assets attributable to unitholders	2,317,733	-	100,990,985	103,308,718

An analysis of financial liabilities by maturity is provided in paragraph 3(d).

(b) Summarised sensitivity analysis

The following table summarises the sensitivity of the Scheme's operating profit and net assets attributable to unitholders to foreign exchange risk and price risk. The reasonably possible movements in the risk variables have been determined based on management's best estimate, having regard to a number of factors, including historical levels of changes in foreign exchange rates, historical correlation of the Scheme's investments with the relevant benchmark and market volatility. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the Scheme invests. As a result, historic variations in risk variables are not a definitive indicator of future variations in the risk variables. A 10% change in foreign exchange risk and price risk is used as the sensitivity rate for these variables.

	Price risk Impact on operating profit/Net assets attributable to unitholders	
	-10%	+10%
	\$	\$
30 June 2026	(10,058,449)	10,058,449

3 Financial risk management (continued)

(b) Summarised sensitivity analysis (continued)

Currency	Foreign exchange risk Impact on operating profit/Net assets attributable to unitholders		
	30 June 2026	Sensitivity factor	30 June 2026
	\$	+/-	Percentage of total foreign exposure
USD	6,611,533	10%	66.74%
EUR	768,137	10%	7.75%
JPY	483,020	10%	4.88%
GBP	468,681	10%	4.73%
KRW	315,819	10%	3.19%
CAD	305,970	10%	3.09%
TWD	301,017	10%	3.04%
HKD	244,234	10%	2.46%
CHF	150,097	10%	1.52%
BRL	59,499	10%	0.60%
PHP	45,110	10%	0.45%
SGD	43,292	10%	0.44%
NOK	35,662	10%	0.36%
AED	23,126	10%	0.23%
TRY	15,740	10%	0.16%
IDR	15,165	10%	0.15%
THB	12,703	10%	0.13%
PLN	7,767	10%	0.08%
Total	<u>9,906,572</u>		<u>100.00%</u>

The above sensitivity analysis was calculated based off the gross investment amounts and do not include any derivatives used for hedging purposes.

In determining the impact of an increase/decrease in net assets attributable to unitholders arising from market risk, the Responsible Entity has considered prior period and expected future movements of the portfolio based on market information.

(c) Credit risk

Credit risk primarily arises from cash and cash equivalents, deposits with banks and other financial institutions and amounts due from brokers. None of these assets are impaired nor past due.

The Scheme does not have any significant credit risk exposure to any single counterparty or counterparties having similar characteristics.

In the opinion of the Responsible Entity, the carrying amount of these financial assets represents the maximum credit risk exposure at the end of the reporting period.

3 Financial risk management (continued)

(d) Liquidity risk

The Scheme is exposed to daily cash redemptions of redeemable units. Other than cash, the Scheme holds investments that are traded in an active market and can be readily disposed. The Scheme's listed securities are considered readily realisable, as they are publicly traded on stock exchanges located in North America, Europe and Asia.

The Scheme's policy is to hold 100% of the net assets attributable to unitholders in liquid investments.

(i) Maturities of non-derivative financial liabilities

The table below analyses the Scheme's non-derivative financial liabilities into relevant maturity groupings based on the remaining period to the earliest possible contractual maturity date at the end of reporting date. The amounts in the table are contractual undiscounted cash flows.

At 30 June 2026	At call	Less than 1 month	1-6 months	6-12 months	Total
	\$	\$	\$	\$	\$
Distributions payable	-	634,726	-	-	634,726
Payables	-	255,978	-	-	255,978
Due to brokers - payable for securities purchased	-	3,233	-	-	3,233
Total liabilities	-	893,937	-	-	893,937

(ii) Maturities of net settled derivative financial instruments

The table below analyses the Scheme's net settled derivative financial instruments based on their contractual maturity. The Scheme may, at its discretion, settle financial instruments prior to their original contractual settlement date, in accordance with its investment strategy, where permitted by the terms and conditions of the relevant instruments.

	Less than 1 month	1-6 months	6-12 months	Over 12 months	No stated maturity	Total
At 30 June 2026	\$	\$	\$	\$	\$	\$
Net settled derivatives						
Foreign currency contracts	30	-	-	-	-	30
	30	-	-	-	-	30

4 Offsetting financial assets and financial liabilities

Financial assets and liabilities related to derivatives are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The gross and net positions of financial assets and liabilities that have been offset in the statement of financial position are disclosed in the first three columns of the tables below.

Financial assets	Effects of offsetting on the statement of financial position			Related amount not offset		
	Gross amounts of financial assets	Gross amounts set off in the statement of financial position	Net amount of financial assets presented in the statement of financial position	Amounts subject to master netting arrangements	Collateral Pledged/Received	Net Amount
	\$	\$	\$	\$	\$	\$
2026						
Derivative financial instruments (i)	30	-	30	-	-	30
Total	30	-	30	-	-	30

(i) Master netting arrangement – not currently enforced

Agreements with derivative counterparties are based on the ISDA Master Agreement. Under the terms of these arrangements, only where certain credit events occur (such as default), the net position owing/receivable to a single counterparty in the same currency will be taken as owing and all the relevant arrangements terminated. As at 30 June 2026, the aforementioned credit events have not occurred. As a result, these amounts have not been offset in the statement of financial position, but have been presented separately in the above table.

5 Fair value measurement

The Scheme measures and recognises the following assets and liabilities at fair value on a recurring basis:

- Financial assets at fair value through profit or loss (see Note 7)
- Derivative financial instruments (see Note 8)

The Scheme has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 requires disclosure of fair value measurements by level of the following fair value hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

5 Fair value measurement (continued)

(a) Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and equity securities) are based on quoted market prices at the close of trading at the end of the reporting period without any deduction for estimated future selling costs. For the majority of investments, information provided by independent pricing services is relied upon for valuation of investments.

The Scheme utilises last traded prices for its financial assets and liabilities.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

(b) Fair value in an inactive or unquoted market (level 2 and 3)

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flows techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the end of the reporting date. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Scheme would receive or pay to terminate the contract at the end of the reporting period taking into account the current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Scheme holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

The carrying value less impairment provision of other receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Scheme for similar financial instruments.

5 Fair value measurement (continued)

Recognised fair value measurements

The following table presents the Scheme's assets and liabilities measured and recognised at fair value as at 30 June 2026.

As at 30 June 2026	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
Financial assets at fair value through profit or loss				
Listed equity securities	98,885,760	127,031	-	99,012,791
Listed unit trusts	1,203,876	-	-	1,203,876
Foreign currency contracts	-	30	-	30
Total	100,089,636	127,061	-	100,216,697

(i) Transfers between levels

The Scheme's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There have been no transfer between levels for the period ended 30 June 2026.

(ii) Fair value measurements using significant unobservable inputs (level 3)

The Scheme did not hold any financial instruments with fair value measurements using significant unobservable inputs during the period ended 30 June 2026.

6 Net gains on financial instruments at fair value through profit or loss

	9 July 2025 to 30 June 2026 \$
Financial assets	
Net realised gains on financial assets at fair value through profit or loss	1,296,883
Net change in unrealised gains on financial assets at fair value through profit or loss	7,609,874
Net gains on financial assets at fair value through profit or loss	8,906,757
Financial liabilities	
Net realised losses on financial liabilities at fair value through profit or loss	(118,912)
Net losses on financial liabilities at fair value through profit or loss	(118,912)
Total net gains on financial instruments at fair value through profit or loss	8,787,845

7 Financial assets at fair value through profit or loss

	As at 30 June 2026 \$
Financial assets at fair value through profit or loss	
Listed equity securities	99,012,791
Listed unit trusts	1,203,876
Foreign currency contracts	<u>30</u>
Total financial assets at fair value through profit or loss	<u>100,216,697</u>

As at 30 June 2026, there are no investments that individually represent more than 5% of the total value of the investments of the Scheme.

8 Derivative financial instruments

A derivative is a financial instrument or other contract which is settled at a future date and whose value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index or other variable.

Derivative financial instruments require no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.

Derivative transactions include a wide assortment of instruments, such as forwards, futures and options. From time to time the Scheme may take out short term forward currency contracts as part of the equity settlement process. Currency hedging is generally not part of the investment process. Derivatives are not managed in isolation.

The Scheme holds the following derivative instruments:

(a) Forward currency contracts

The Scheme agrees to receive or deliver a fixed quantity of foreign currency for an agreed upon price on an agreed future date. Forward currency contracts are valued at the prevailing last traded price at the end of each reporting period. The Scheme recognises a gain or loss equal to the change in fair value at the end of each reporting period.

The Scheme's derivative financial instruments at 30 June 2026 are detailed below:

	Notional	Fair Values Assets	Liabilities
30 June 2026	\$	\$	\$
Forward currency contracts	<u>5,899</u>	<u>30</u>	-
	<u>5,899</u>	<u>30</u>	-

As at the reporting date, the Scheme hedged transactions or positions by holding foreign currency contracts with a gross notional value of \$5,899 comprising of buy \$0 and sell \$5,899 resulting in net negative exposure of \$5,899.

9 Net Assets attributable to unitholders

Under AASB 132 *Financial instruments: Presentation*, puttable financial instruments are classified as equity where certain strict criteria are met. The Scheme classifies the net assets attributable to unitholders as equity as they satisfy the following criteria:

- the puttable financial instrument entitles the holder to a pro-rata share of net assets in the event of the Scheme's liquidation;
- the puttable financial instrument is in the class of instruments that is subordinate to all other classes of instruments and class features are identical;
- the puttable financial instrument does not include any contractual obligations to deliver cash or another financial asset, or to exchange financial instruments with another entity under potentially unfavourable conditions to the Scheme, and it is not a contract settled in the Scheme's own equity instruments; and
- the total expected cash flows attributable to the puttable financial instrument over the life are based substantially on the profit or loss.

Movements in number of units and net assets attributable to unitholders during the period were as follows:

	9 July 2025 to 30 June 2026 No.	9 July 2025 to 30 June 2026 \$
Opening balance	-	-
Applications	18,282,086	101,374,476
Redemptions	(1,184,234)	(6,763,611)
Distributions paid and payable	-	(634,726)
Profit for the period	-	9,332,579
Closing balance	17,097,852	103,308,718

Capital risk management

The Scheme manages its net assets attributable to unitholders as capital. The amount of net assets attributable to unitholders can change significantly on a daily basis as the Scheme is subject to daily applications and redemptions at the discretion of unitholders.

10 Distribution to unitholders

Provision for distribution payable

	9 July 2025 to 30 June 2026 \$	9 July 2025 to 30 June 2026 cents per unit
Provisions for distributions recognised	<u>634,726</u>	<u>3.71</u>
Closing balance	<u>634,726</u>	<u>3.71</u>

Distributions

	Period ended	
	9 July 2025 to 30 June 2026 \$	9 July 2025 to 30 June 2026 cents per unit
Interest income	16,233	0.09
Australian dividend income	11,391	0.07
Foreign income	578,386	3.38
Foreign tax credits	(95,995)	(0.56)
Franking credits	(3,685)	(0.02)
Other capital gains	<u>128,396</u>	<u>0.75</u>
Total distributions	<u>634,726</u>	<u>3.71</u>

11 Reconciliation of net profit/(loss) to net cash inflow/(outflow) from operating activities

	9 July 2025 to 30 June 2026 \$
(a) Reconciliation of profit/(loss) to net cash inflow/(outflow) from operating activities	
Net profit for the period	9,332,579
Proceeds from sale of financial instruments at fair value through profit or loss	35,527,849
Purchase of financial instruments at fair value through profit or loss	(127,066,184)
Net gains on financial instruments at fair value through profit or loss	(8,787,845)
Transaction costs on purchases and sales	110,735
Net change in receivables	(135,666)
Net change in payables	62,159
Effects of foreign currency exchange rate changes on cash and cash equivalents	160
